SIMONE SIMON

Simone,

If you get any closer to Camiener you'll be sitting on his lap. From now on, I want you to take your test in another room young lady. You never beat me in a debate in 10th grade, but I like you anyway. It's been loads of fun in Calculus. Have a great summer. Good luck at U-M!!

Love,
Jeff Frank

P.S. Hi Simone!

Simone,

Remember all of the fun times we've had in A.P. Chem. (Folks, folks, what's going on!) in spite of a Greek dichromate lab. And in humanities looking at slides of the "splendid" Venus of Praxiteles. You're been a wonderful person to get to know, and we should get together a few times at U-M.

Love,
Michael

P.S. - I'm not going to bring any sweaters with hoods on them to Ann Arbor!

My Dearest Simone,

First of all, you could have saved a good spot for me. You are a dear, sweet, wonderful, charming, intelligent, beautiful person but don't get conceited. I'll be sure to visit with you at U of M. You better come visit me or else!

Love,
Andy

Dear Simone,
Well, I guess I could just rewrite what I wrote to you on my senior picture, but you said to be original! You know what a great friend you've been to me. I'm so happy we're both going to U of M ... TO BE CONTINUED
He's back from a long hour's rest!
I really consider you a good friend and I'm glad you're going with me to college! Love, Eddie

Simone!
Even though you beat me in the debate in 10th grade I still like you. It has been a great being in Calculus with you. Thanks for helping me up. When we starts to mumble. Simon E. Simon. Sorry, I just had to say it. Have a great summer. You'll do great at Michigan and in life.
Take care always,
Love,
Jeff Camiener

P.S. I'll be looking for you in some physics class at U of M!

Simone,
I could always count on you to always mess up and jeopardize my curve. I don't think my hair's ever been the same since. Thanks for that. I'll see you in college. Dearest Simone,

Simone,
I'm sorry that I've been such a jerk. You've been a great singer, leader and friend. I know you have many talents. I don't think you'll ever forget T.J. and humanities. B-d was our teacher, ask him.
I'll see you next year at the big U. Keep in touch while you're there. Good luck in whatever you do.

I bet you are really worried that I might be really queen and sign this in diffehent colors. Belive, me I would never do that. I am really glad I got to know such a talented singer, actress, and calculus student as you this year. Too bad our affair had to be so covert, under the watchful eyes of Mr. Borgeon. I wish you had flunked enough classes so that we could enjoy your smile next year. Have a great time at school.
Love,

I know that we have both been busy this year but we should have made the time to see each other. Its sad to think how close we used to be, and look at us now! We barely see each other. Ill never forget all the great times that we've shared together. (Especially with Ed the Sped!) Boy, did we act like fools! Im so glad that we are going to prom together! This is going to be a very special night for me, being with everyone I care for. Please! lets try not to lose touch with each other after we graduate! I hope you and Jenny have a great time at U of M. I know you will! Ill miss you! Your friend forever + ever Jena

REMEMBER WHEN

Remember when you started at Southfield-Lathrup?

The school seemed so big, and senior year seemed so far away. There were new faces, friends, and lots of new teachers. Junior high was nothing compared to this.

You finally made it through that first year, and you thought you knew it all as a mighty soph. But there was still more to learn and new problems to face.

Junior year came next, and with it new responsibilities. Tests arrived as you began to think about your future. High school didn't seem easy any more.

Finally, senior year arrived. Life was fun, but decisions were many. Will I be accepted to college? Will I go to prom?

Step by step, the obstacles were overcome, and now you leave Southfield-Lathrup High School with a lifetime full of memories that will never be forgotten.

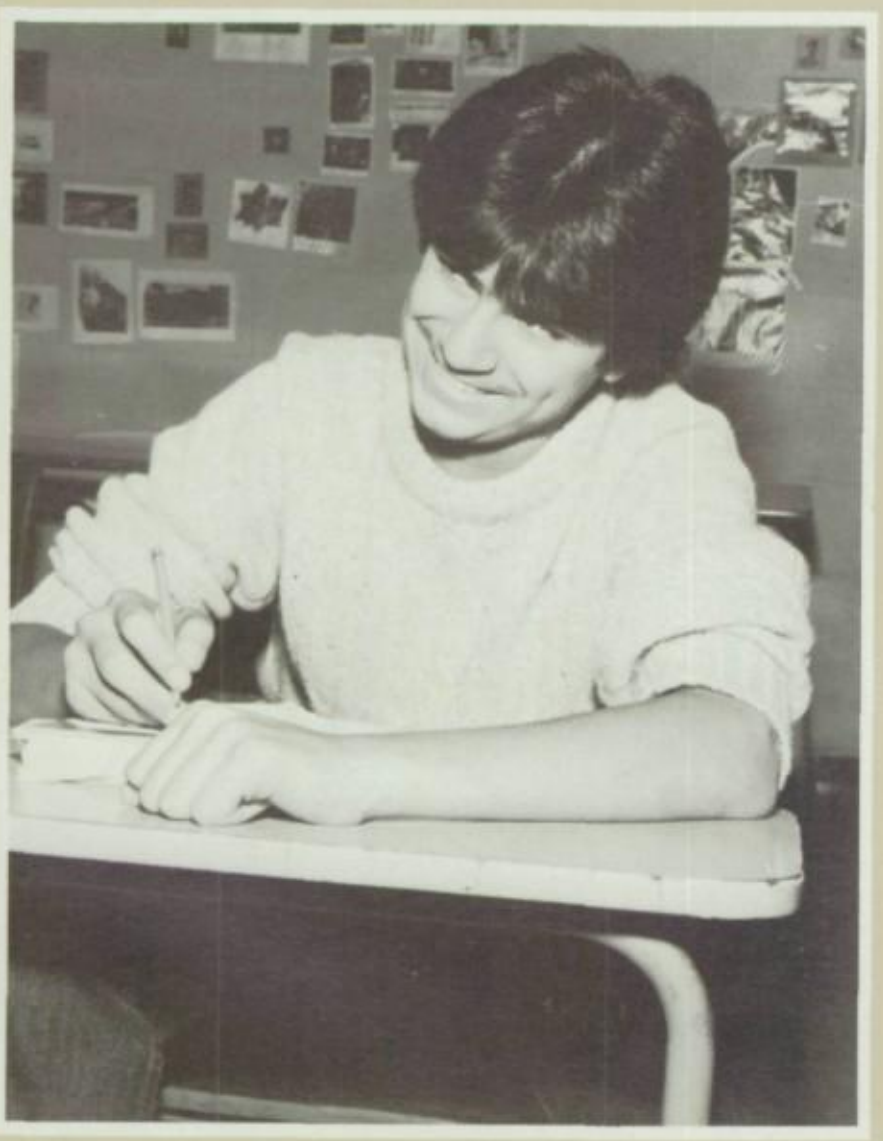
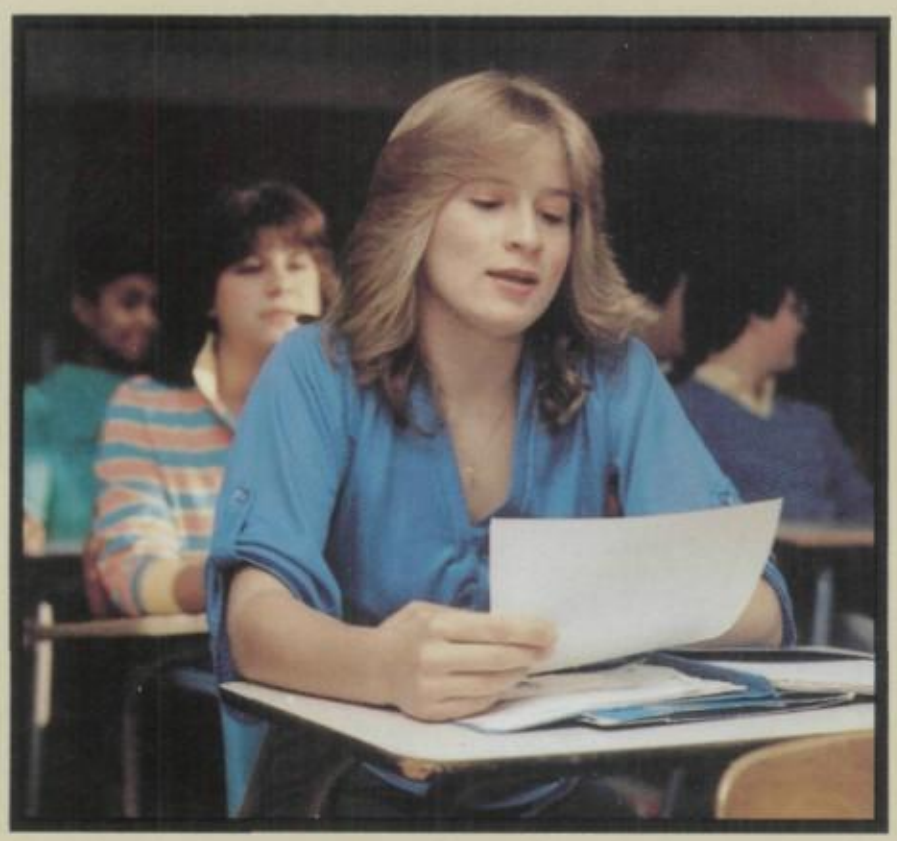
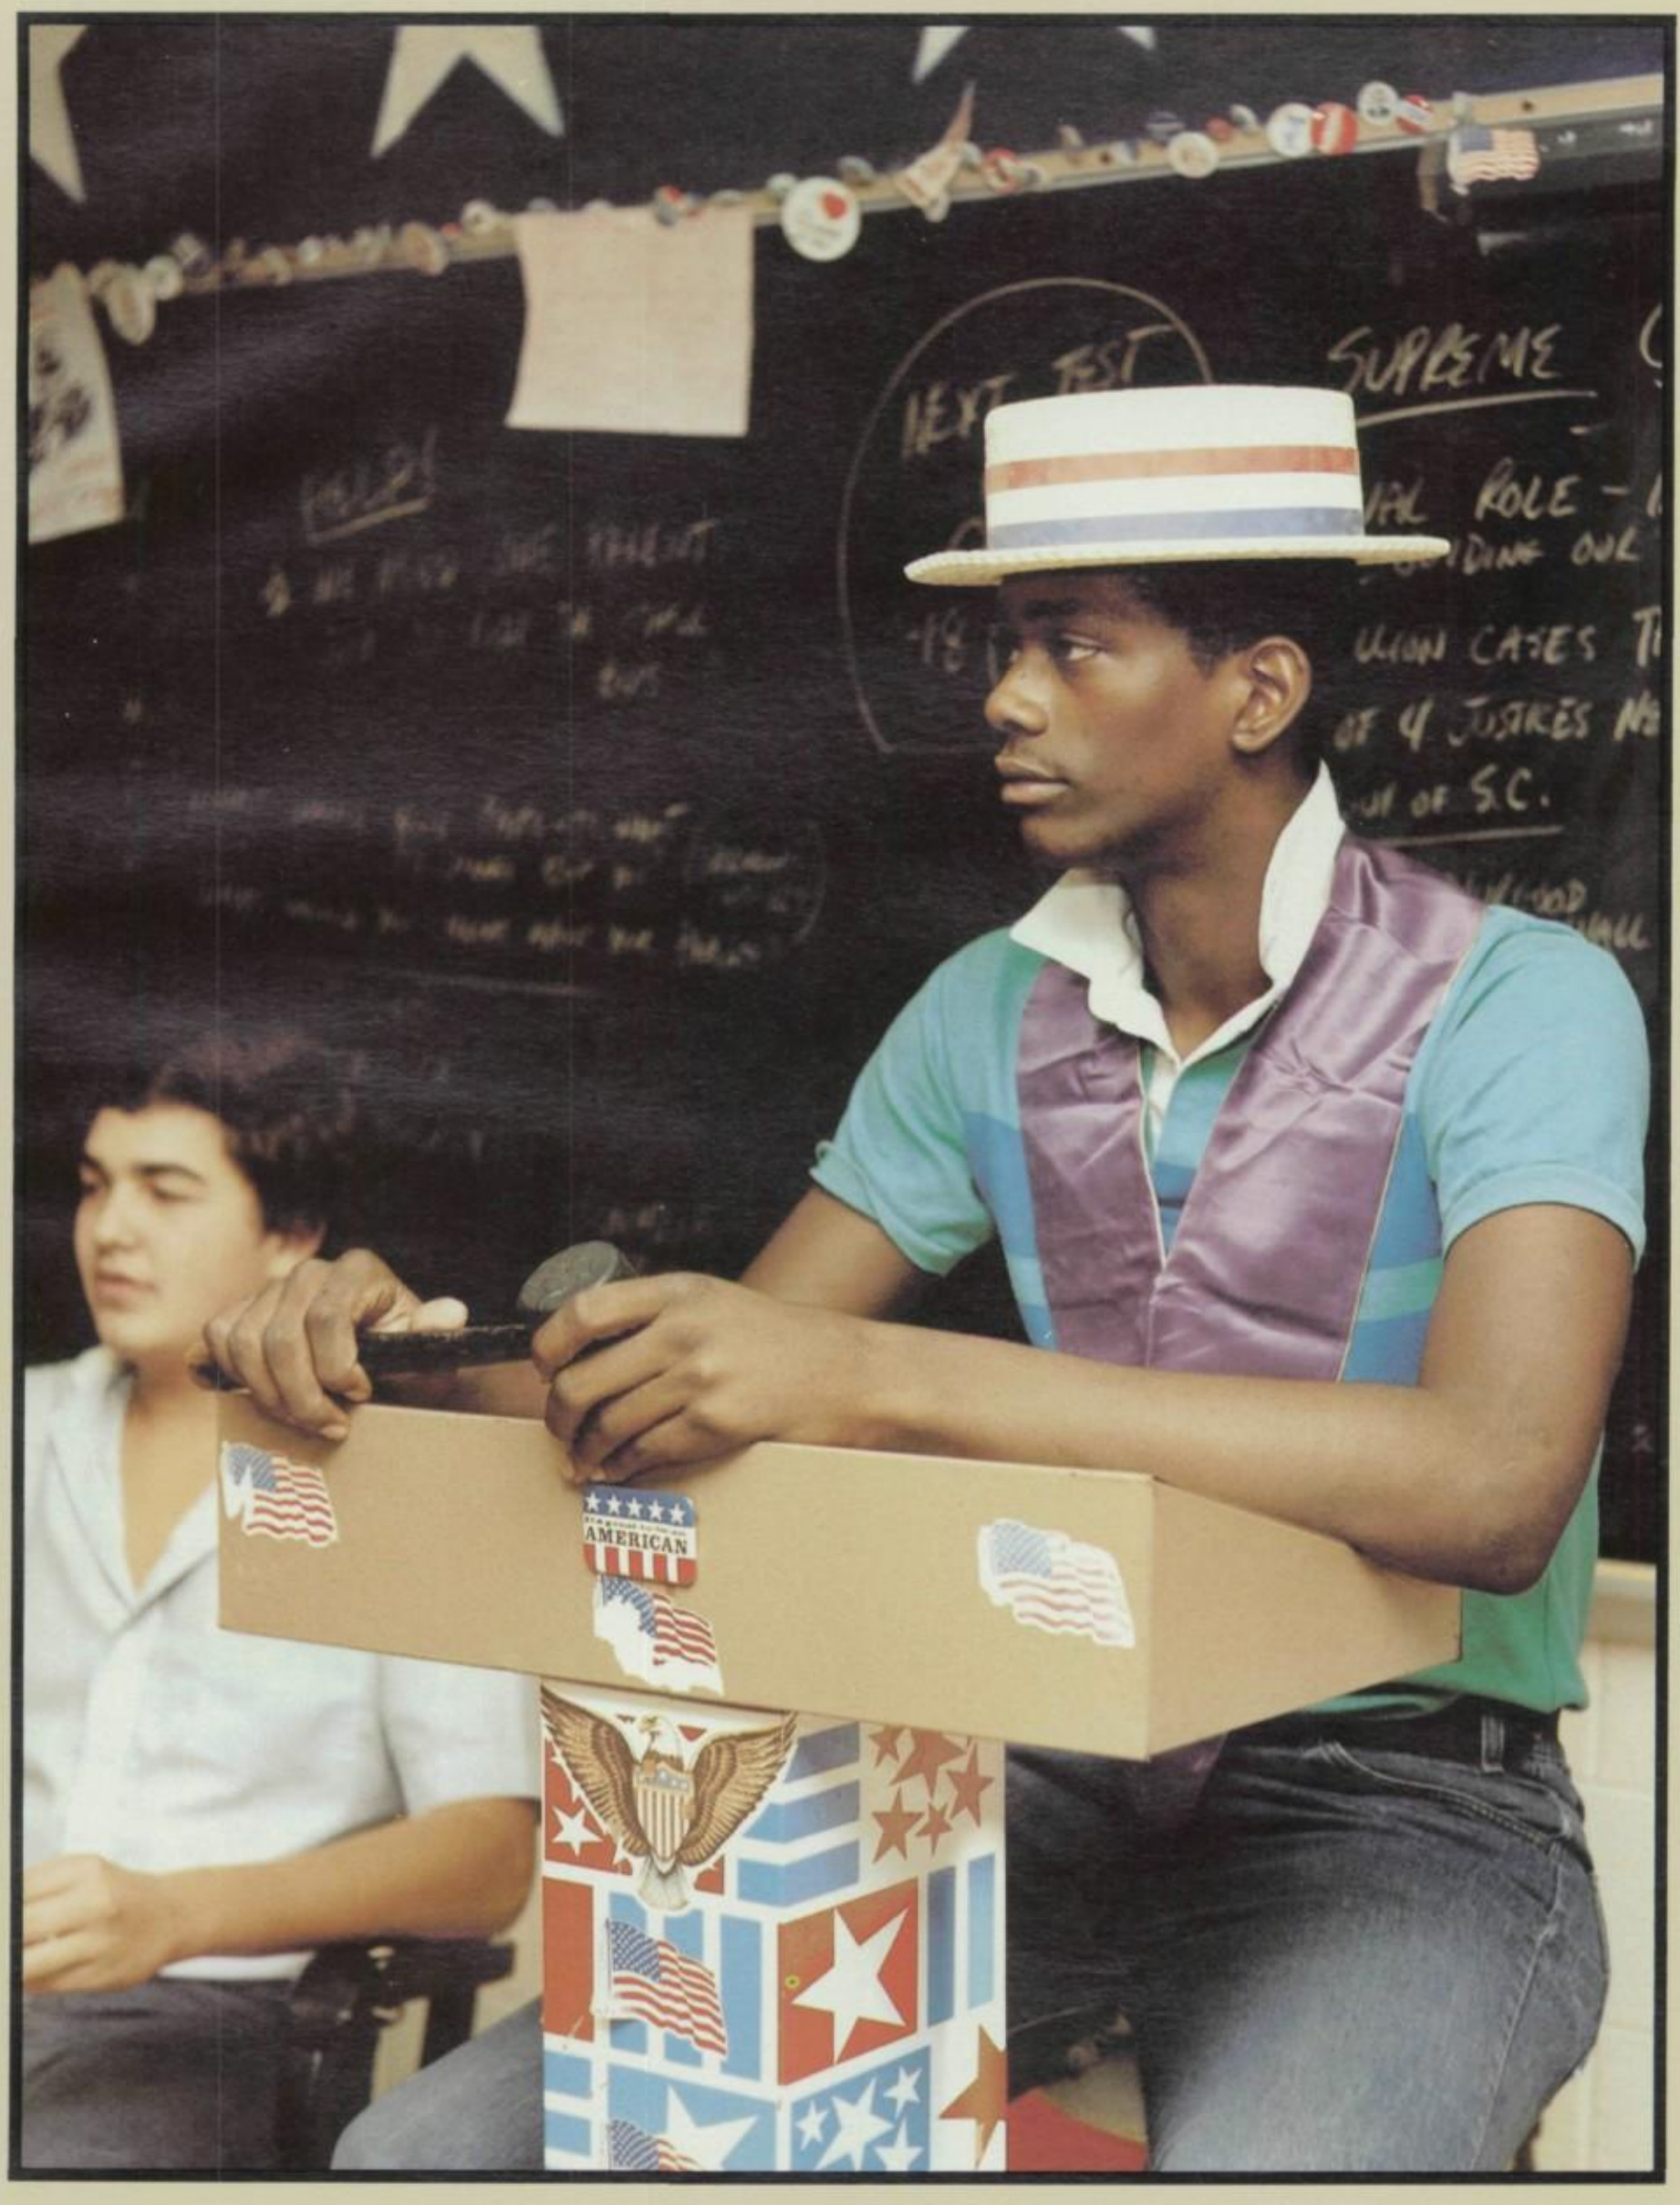
Earth Science

A year at S-L brings many changes,
friends, and memories into our lives,
and through it all we learn to adapt ourselves,
and turn each year into a part of us
we will never relinquish.

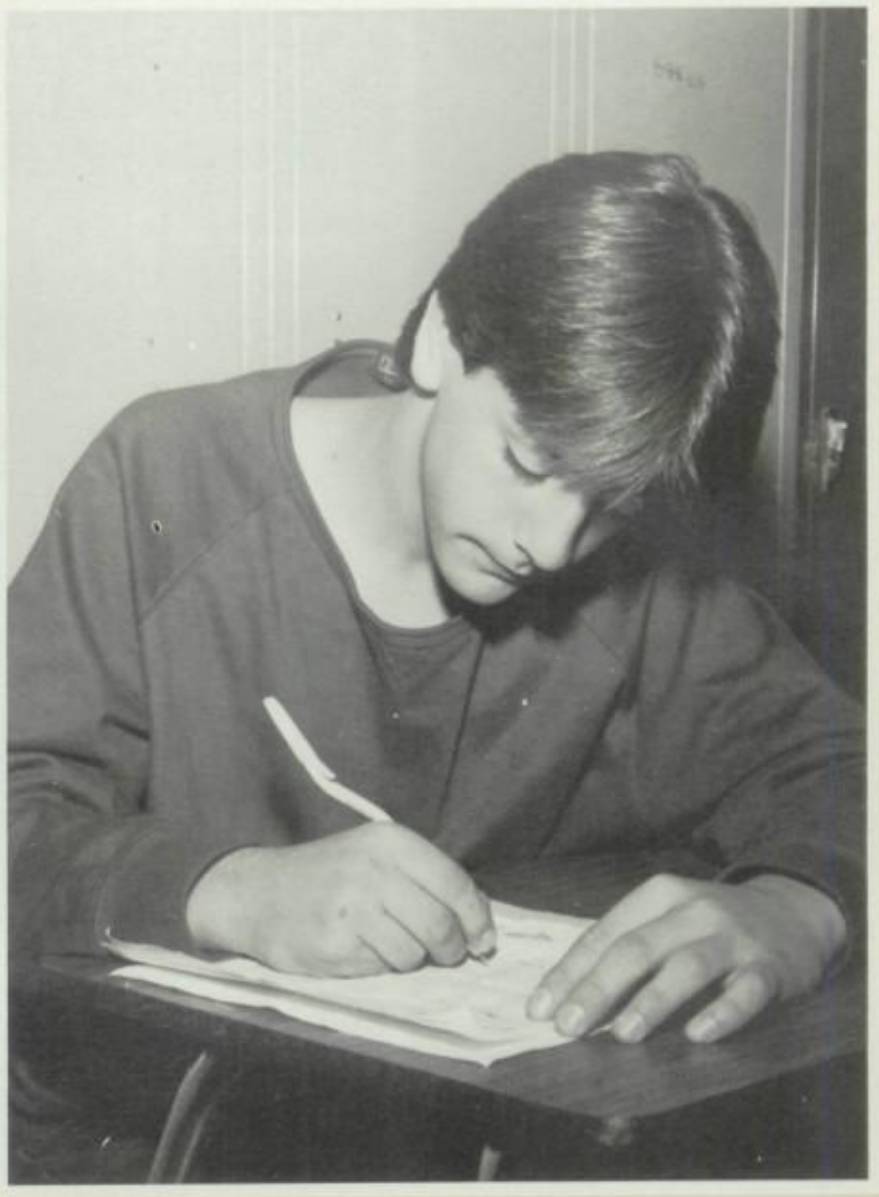


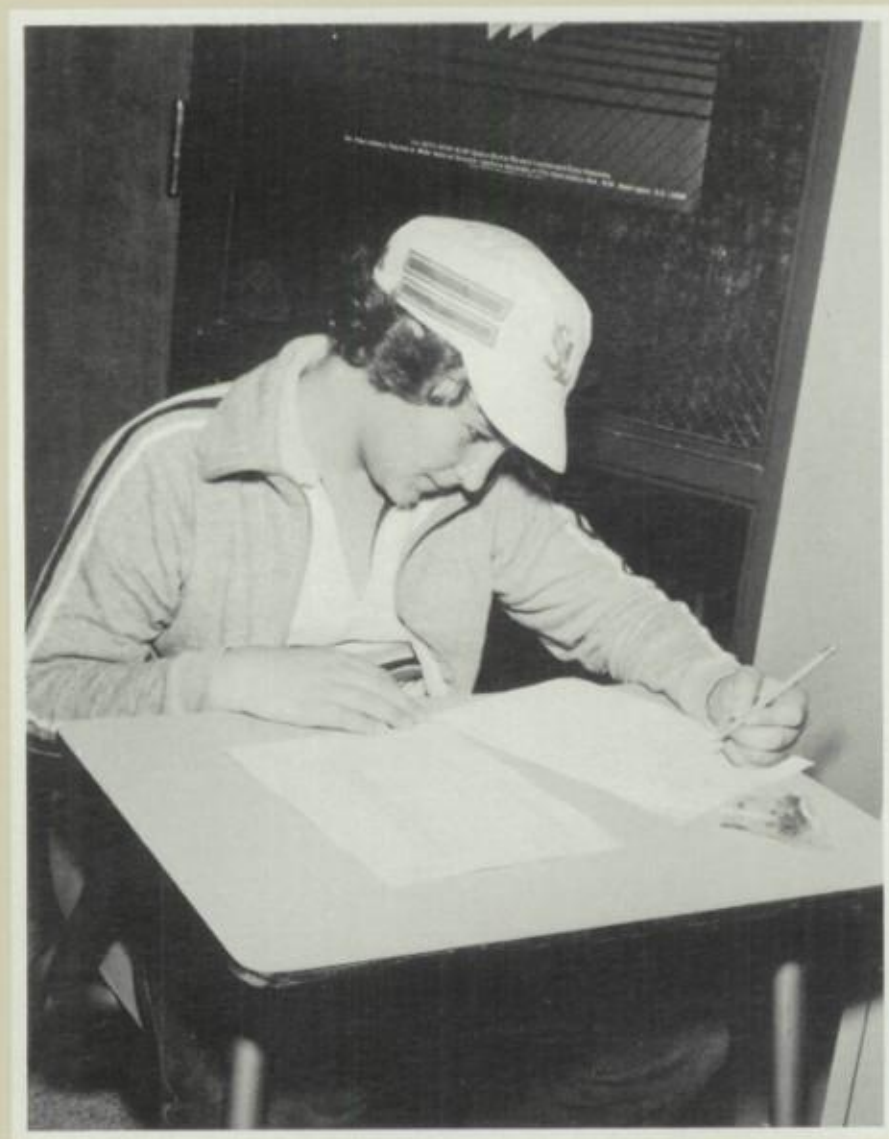
School might seem rough now, but we'll remember it with a smile

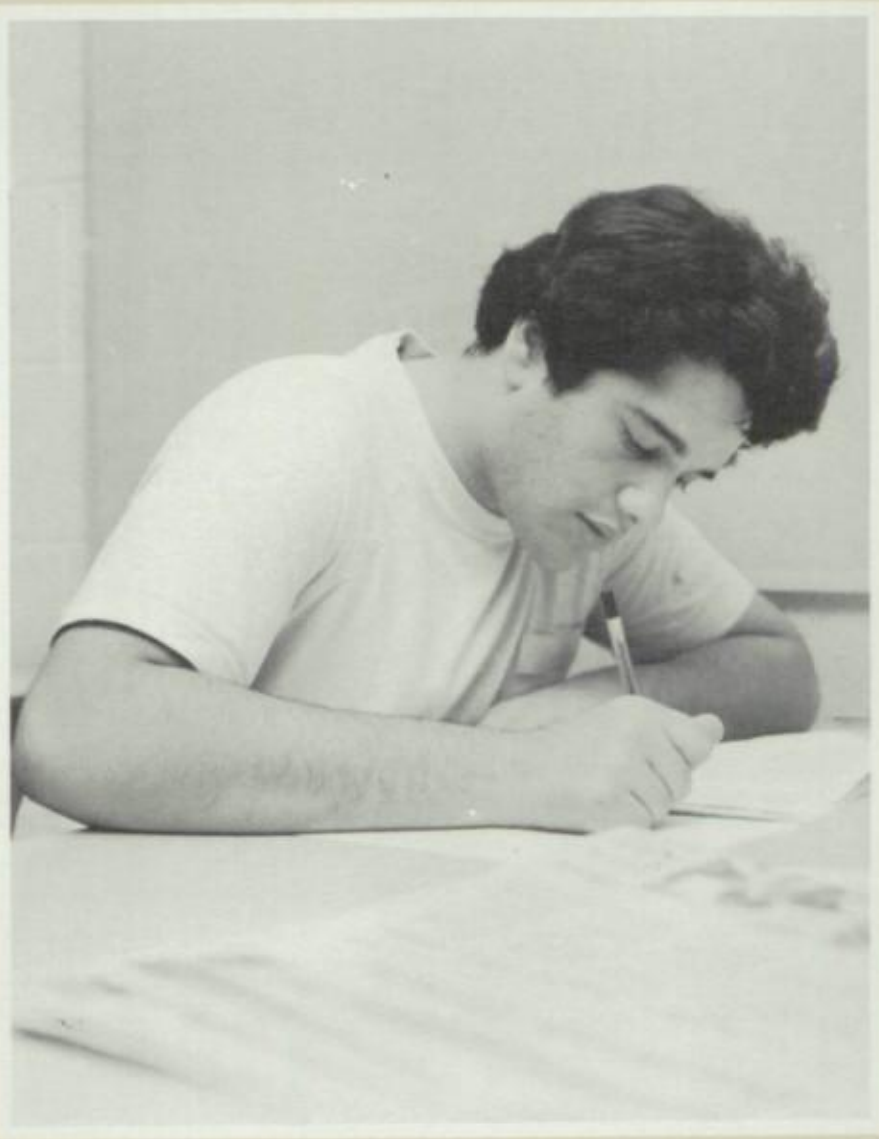




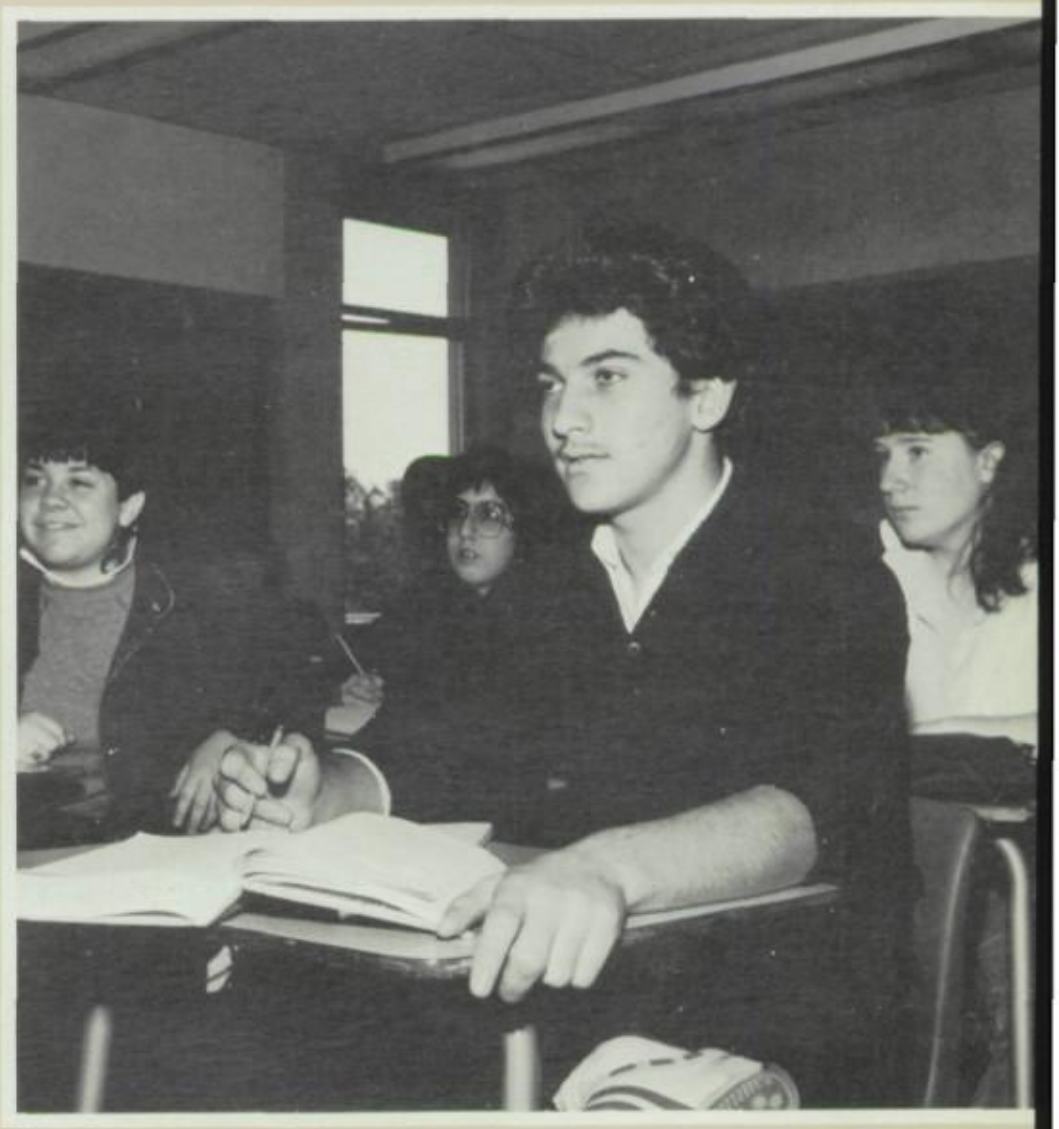
AMERICAN





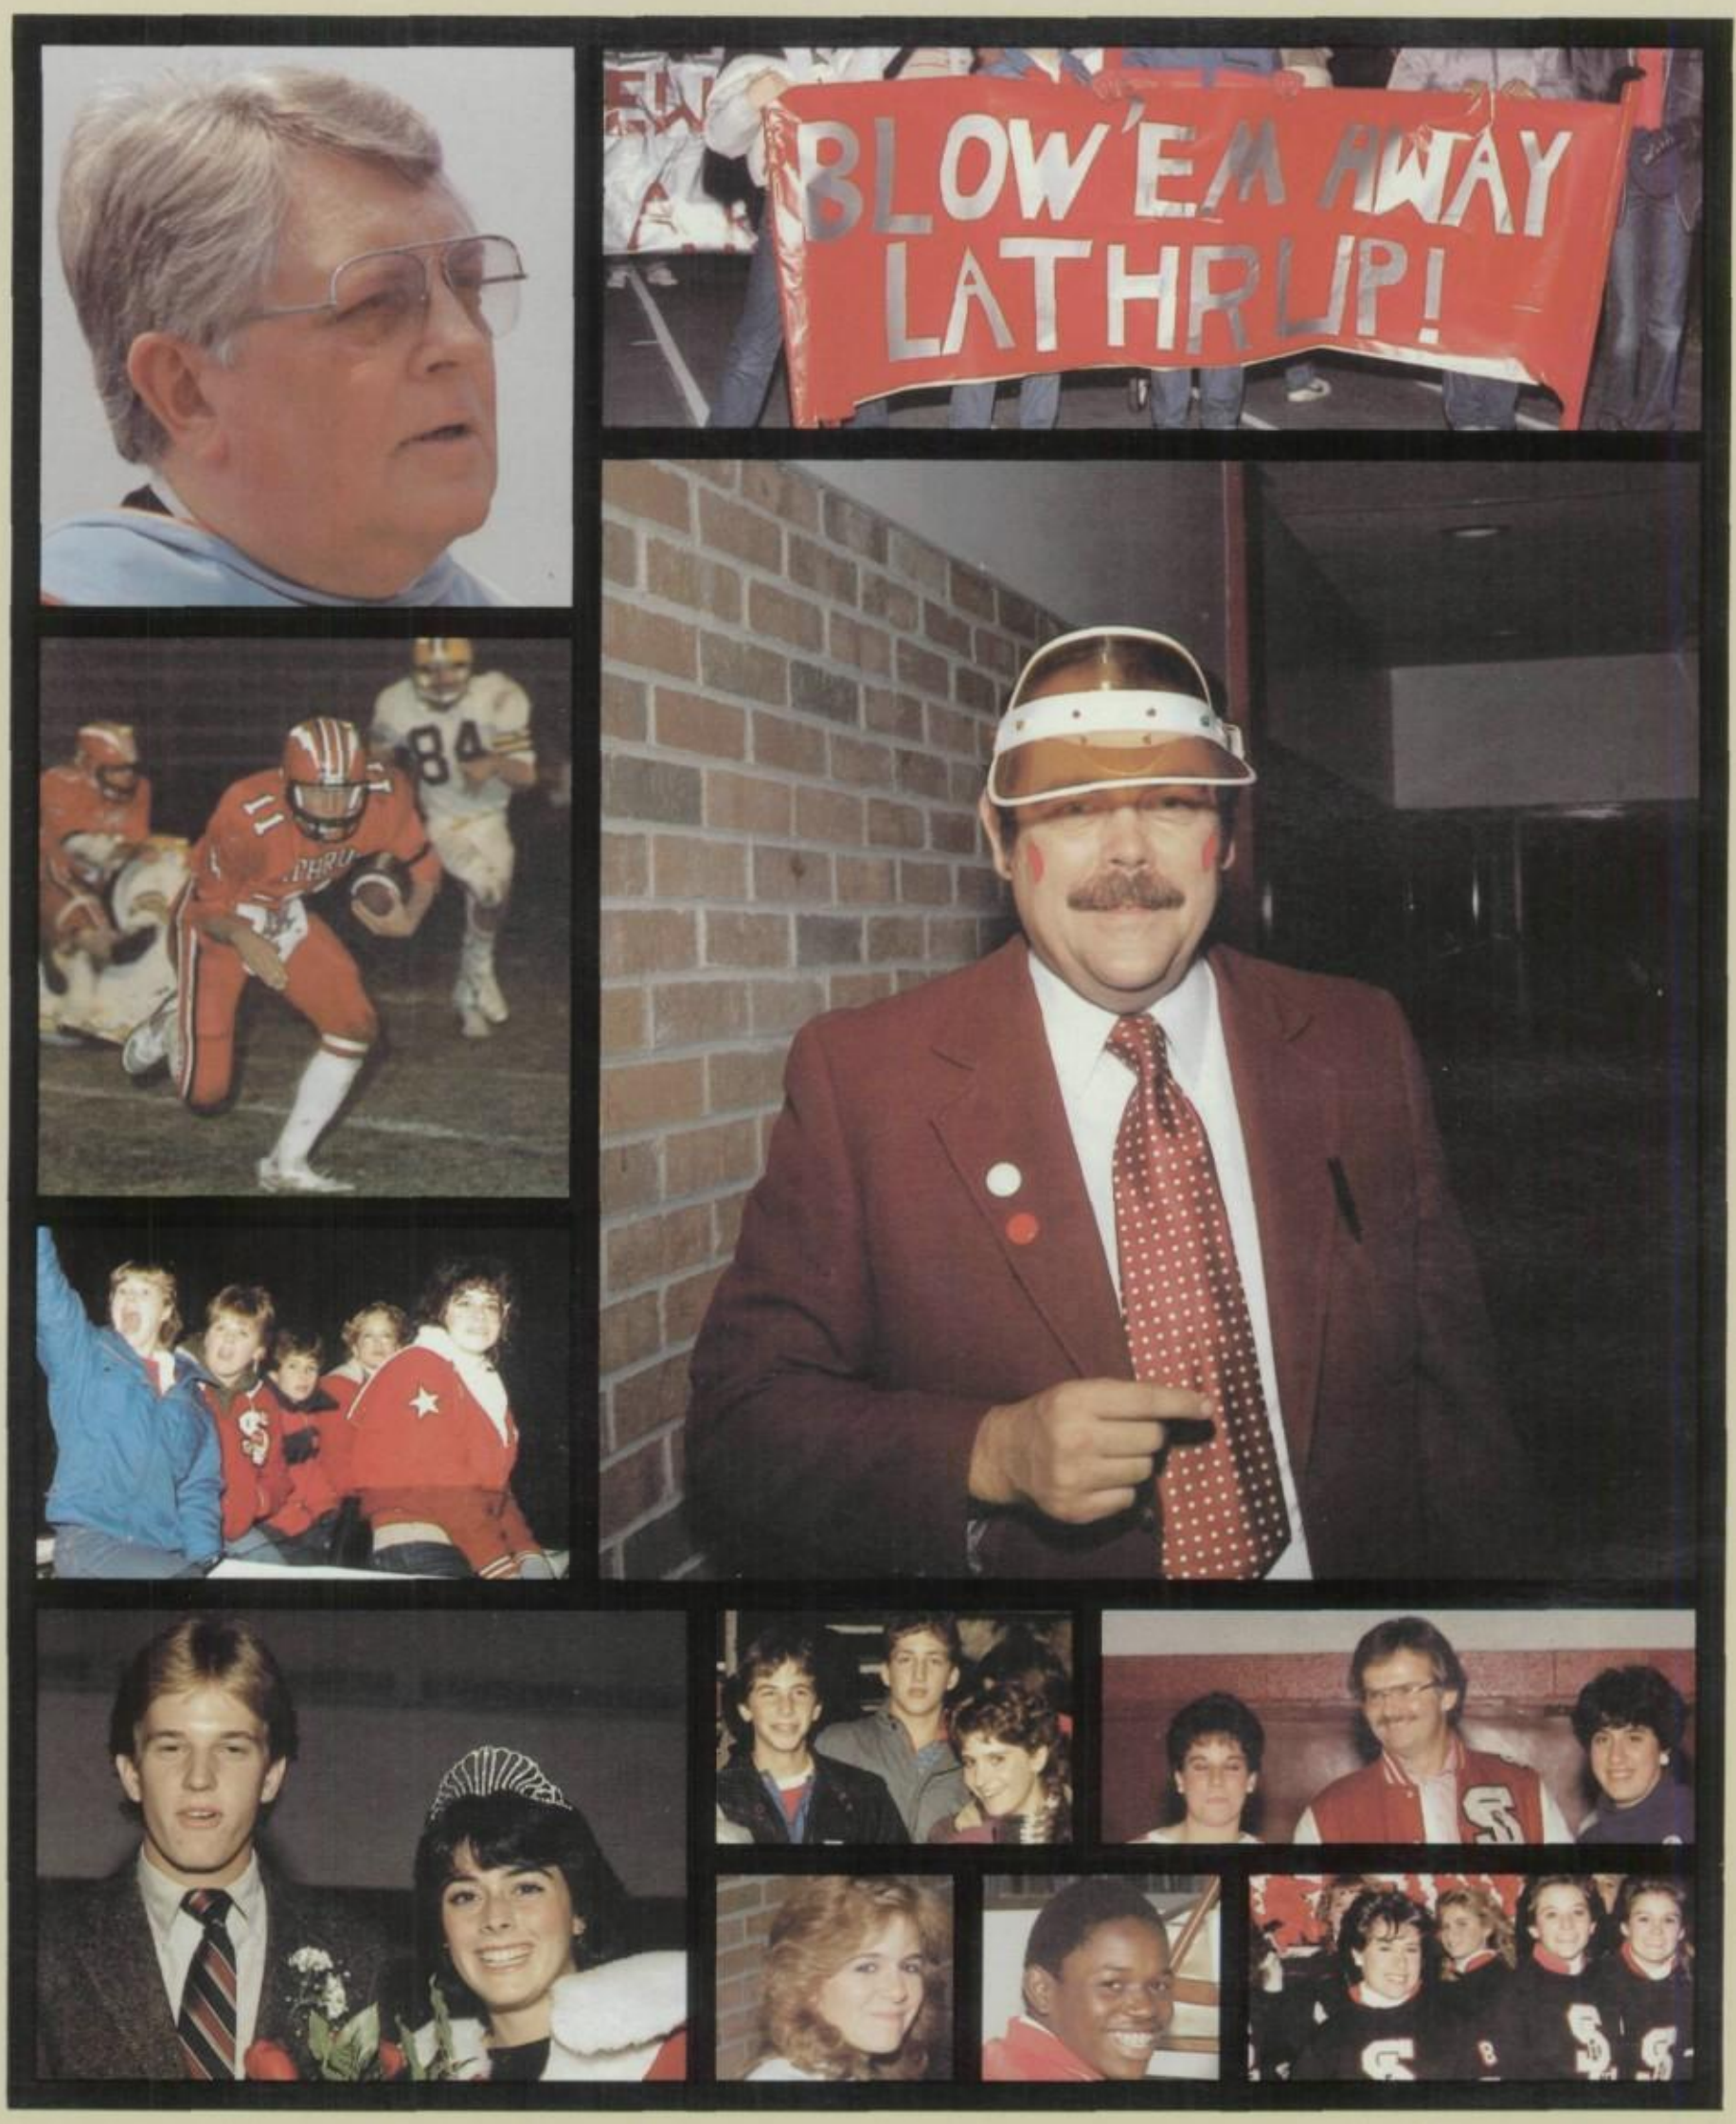


You were once young,
but now you're older.
Time to face a new life,
to be brave and bolder.
You once were a tot,
but now you've grown.



Tasks are accomplished
and good things shown.
Charge into your new life
with good memories in mind.
Life will be good to you
if you're caring and kind.

There's so much to remember in



just one year of high school . . .

I recall it all:
You were my teammate,
my locker partner,
my co-conniver.
You got me in trouble,
helped me, and kept me laughing.
You were my best friend.

Another chance for an "A".
Another class, another day.
One more vacation, one more cardmarking.
It's finally here,
and the final bell is about to ring.
What a good future my education will bring.

REMEMBER WHEN

We started out with our new teachers at the beginning of the year. We compared schedules with our friends to see what classes we had.

The principal and assistant principals were enthusiastic to see us again. They worked hard the whole year to make our school a second home for us.

From art to science, there were all kinds of classes to take. Dissecting fetal pigs and writing essays are things we'll never forget. Computers were great, too, as school carried us into a whole new age of learning.

problems of their own,
just so we can come in

When you're in there

the counselors are trying
to work our problems out.
From C wing to D wing
they're all so cool,

Read, study, and research

REMEMBER WHEN

So many things happen between the time that the yearbook is completed in February and when it comes out in May, that we don't ever want to forget. That's why we have a spring section, so that we can remember the spring play, and all of the spring sports, like boys' baseball, girls' softball, and boys' track.

And, of course, we always want to remember the senior prom and graduation, which are the wonderful end to a full four years at Southfield-Lathrup High School.

Prom night was just right

The prom is finally here,
and it's the last dance
of the year.
The long dresses,
the tuxes and fine band.
You dance and dance until
you can no longer stand.
You're out all night
and you come in late.
It's a night to remember
and it's always great.

So they march into the sunset

It is now graduation day,
and you have a lot to say.
You can't believe you've come this far.
The door to the future is ajar.
Yes, it's been worth all the hassle,
to finally receive your robe and tassel.

Hitting and catching . . .

Running, hitting, catching, throwing, stealing, and scoring all add to the excitement and drama the Varsity Baseball Team gives. Working toward the big game, playing through the game, and moving onto the next. The experience is never forgotten.

Learn the trade

The Boys' J.V. and Freshman Baseball Teams
are very talented.
Baseball is a very difficult sport to play,
and these guys compete with the best of them.
They win some and they lose some,
but most important, they have fun.

are well worth it in the end,
when you make the Varsity Softball Team.

A team has spirit, charisma, and strength. They all work together to form one big bond that has to be tight in order to win. That is what the J.V. and Freshman Softball teams have. They have what it takes to get ahead.

S-L off and running

Working on the track team
is really tough.
You have to run and jump
and do other stuff.
Good running shoes
are a must,
to dig the dirt
and kick the dust.
S-L Track strives
for Number One,
and they do not rest
until it's done.

REMEMBER WHEN

The activities were a lot of fun this year. Many people participated. We came to school this year wanting to make new friends, and getting involved was the best way. Going to choir practice made you feel like you were doing something worthwhile.

Rolling that ball down the lane and getting a gutterball discouraged you, but your sponsor kept your spirits high. Being a part of the yearbook or newspaper staffs gave you new skills.

There really is something for everyone at S-L.

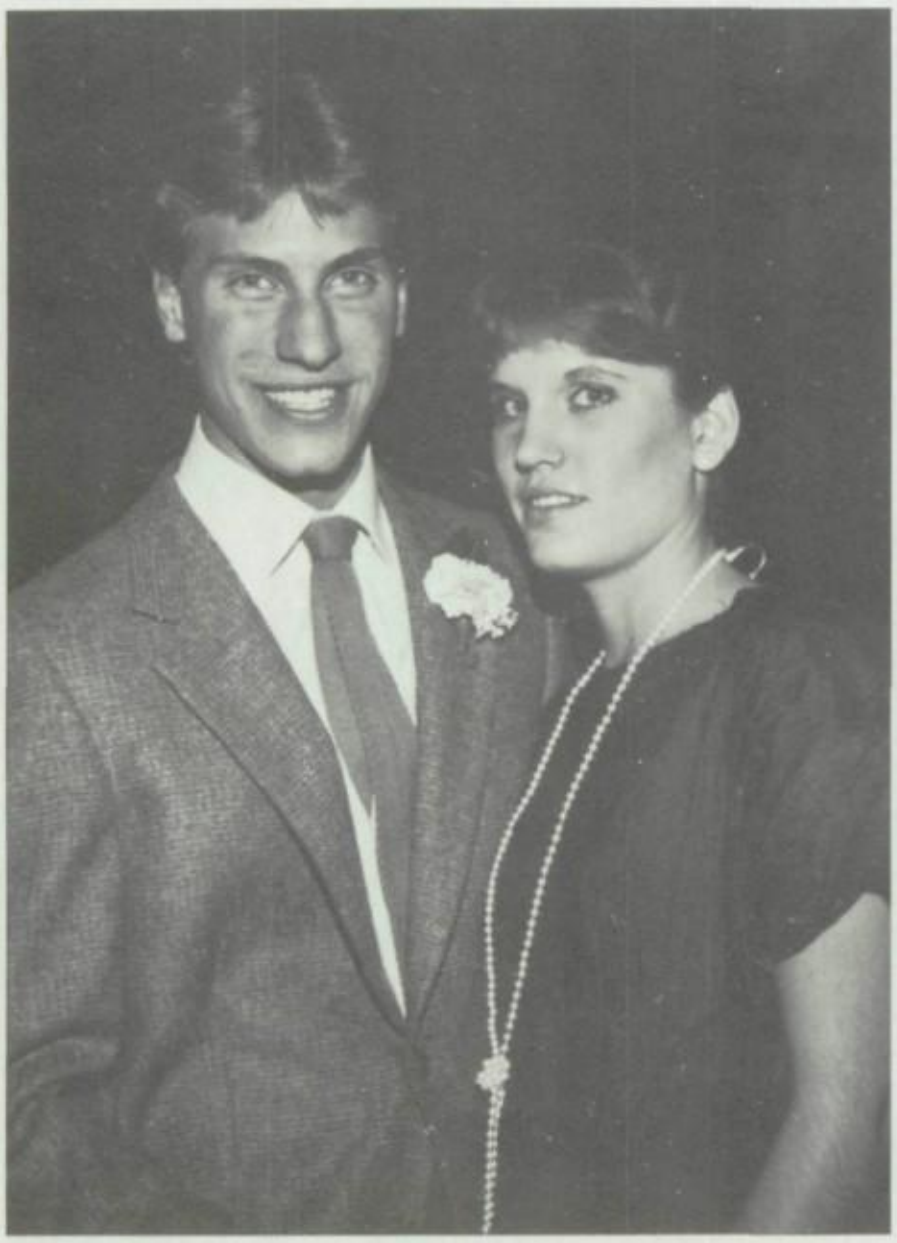
and surely a day they'll never regret.



Homecoming!

It was a cool, damp night at the stadium, when suddenly the band struck up, and off in the distance, parading this way, were some amazing floats. The crowd was electrified, because at last our Chargers were covering the floats. Soon the team marched off the field victorious, and the stadium emptied. The excitement of the night still filled the air, but soon the night would become just a memory.

makes our publications complete.

REMEMBER WHEN

Sports is one of the exciting things S-L has to offer. Think back to when the school year started. Making a decision of which sport you wanted to try out for was difficult.

Tryouts soon came along, with the many hard practices. Working out for long hours and getting home late every night were some of the things you had to sacrifice for playing on a sports team.

Fans were an important part of each season. All this hard work paid off in the end when you went to the championships for your team.

It's football season and the team is ready to start, with big linemen and halfbacks that dart. Touchdowns, field goals, we will score. We'll beat Kimball, Dondero, Southfield and more. The team will go straight to the top, because there isn't a team we can't stop.

There's sportsmanship and
spirit; that's our aim.

When we lose, we despair.

Golfers have all the zest

Being a golfer is always fun,
especially when you get a hole in one.
You try your hardest and you do your best,
and you give that ball all your zest.
When you're golfing, you're really up to par,
and getting a low score makes you feel like a star.

Girls keep on swimming

The S-L Swim Team's really neat,
which makes them so hard to beat.
Breast stroke, butterfly,
and much, much more.

Watching the girls swim
is always exciting.
They never stop swimming
and they keep on fighting.

Swimming with style and grace

A synchronized swimmer is more than just a swimmer.
You have to be graceful and quiet and make the right moves.
You swim to the music and you stay on every beat.
You hold your breath a long time and you always stay with the routine.
It all adds up in the end when you get your score.

ABOVE: The girls work hard at perfecting their ballet legs.
ABOVE RIGHT: Swimming together in a perfect circle isn't as easy as it looks.

It's not so easy

When you're a gymnast
you twist and turn.
It's hard work,
but fun to learn.
The gymnasts always
have what it takes.
They work and practice
until it aches.
So come on out
and yell and scream,
because S-L's gymnasts
make a good team.

Soccer's rough and tough

For a sports team to have a good season,
teamwork and dedication must be the reason.
You must be equipped with a lot of skill,
'cause there's always a spot for you to fill.
With experience, there's a lot to be gained,
but that takes time and you must be trained.
In the end, it all adds up to lots of fun, and
you're very proud of the job you've done.

Those skiers are ready, all bundled and cold,
to go beat their opponents and win all the gold.
But how can they move in all that attire?
Their coach at the bottom is sure to enquire.

Chargers skate on to victory

As the crowd of students yell out loud, the S-L hockey players feel very proud.
Pushing and shoving are part of the game, but the players must keep themselves tame.
Two minutes in the penalty box is what they pay,

REMEMBER WHEN

The freshmen came to a new school this year with a totally different atmosphere. But they soon adapted. They made new friends and fit right in.

Sophomores came back ready to start the year that was filled with happy times, but hard work.

Juniors were glad to move up a grade. It was the hardest year. Colleges would look at this year the most. Students had chemistry, which was almost impossible at the time.

Underclassmen could not wait for their best and their last year.

New generation

We are the new generation.
We are only freshmen,
which brings some frustration.
We are the class of '87, and
we've finally reached high school.
In a few years,
our day to leave will come,
with many cheers,
and tears from some.
Yes, we are the new generation.

Dear Simone,
You are one of the smartest people I know. Even though you thought I was bitch when you first saw me I still am so glad that we met. You are so funny and you can't see it but you are so sad. You going to really miss you and me - you are so dear to me when I'm upset to. Just see it! I guess I will just have to come up and visit you!!!
You are the smartest, you made my ~~it~~ list and helped me so much more
I love ya so much!!!
Love always, Lorna
You better keep in touch.

Sophomores

Dear Simone —
As a future junior, I would like to comment on just how frightening this year was. We went on an all year marathon of singing. In 20 yrs. from now, look back on this as the rowdiest(?) yrs. ever! Have fun in college and please forget me (everyone always writes "Don't forget me") well, take care.
I'll miss you!!
Love,
Donny/Ed

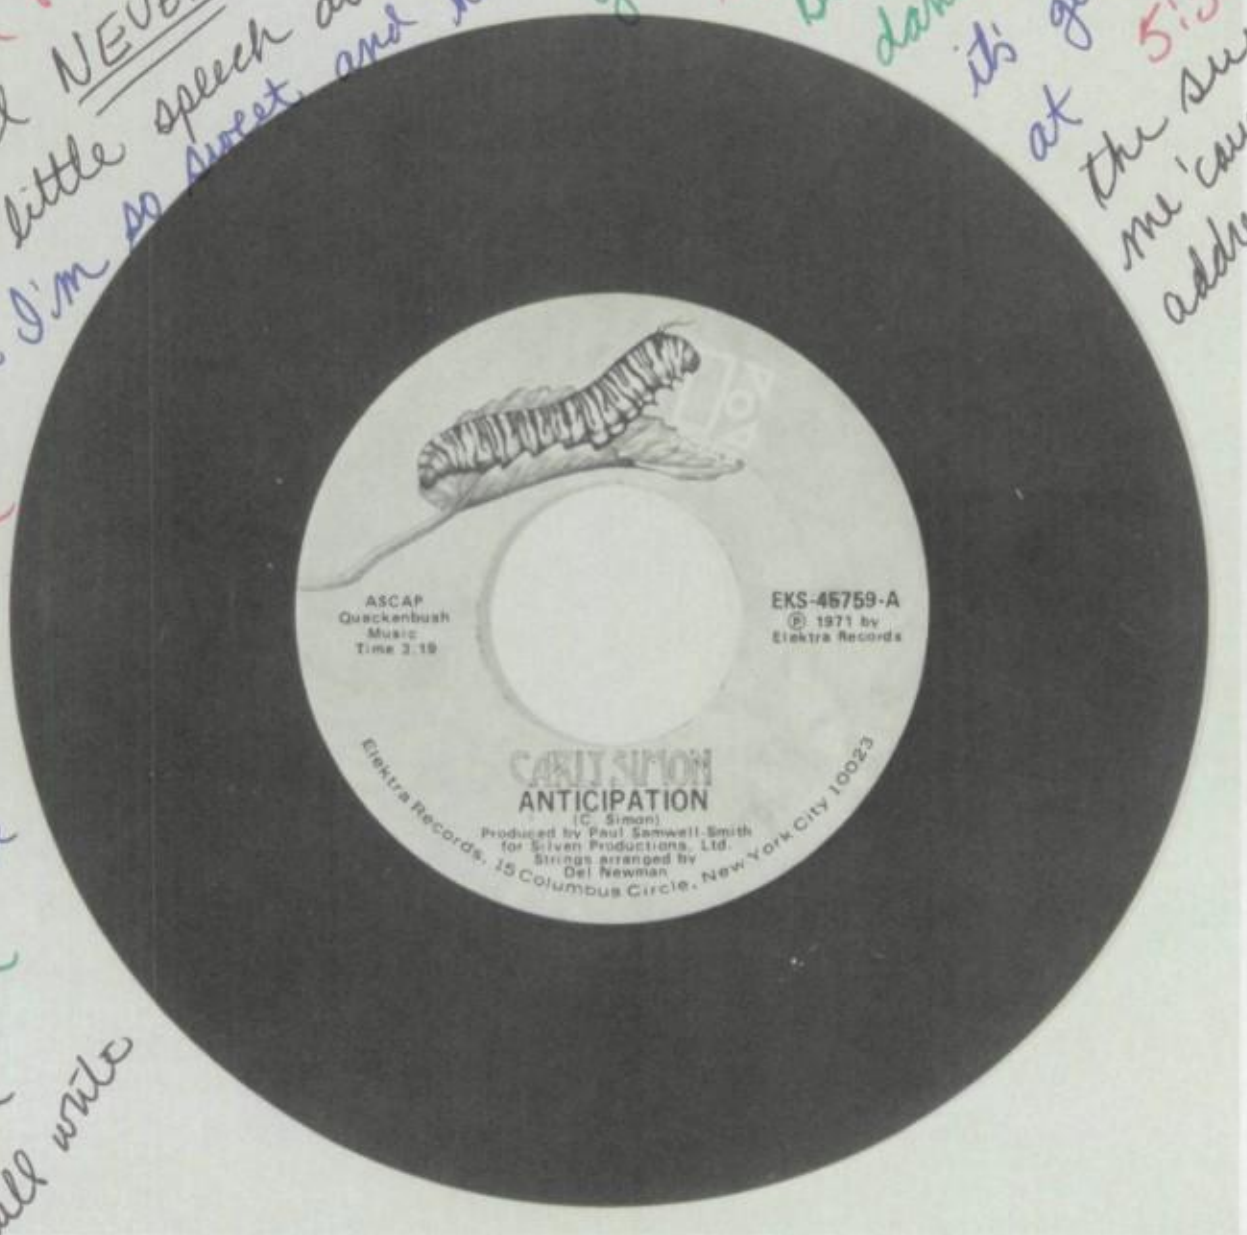
Simone, (pronounced See-more) (Manager)
I won't start this off by saying
I had a fun year with you 'cause I didn't
you are dressed very colorful today (June 8, 84)
I'm very mad at you for all your
weird stares and me during class - you don't have
remember at Florida when Simon thought you do
had a lot of fun last year and this year even though I didn't
really didn't know you too well last year. But I did get to know you
better this year. I'll NEVER forget you at the Chair Banquet
when you said your little speech about me! I'm very angry
at you (but, since I'm so sweet, and understanding) I'll forgive you
all miss you and forever (Bad grammar) But
Neal and I will come to visit you with your
"wild parties" you're dancing. Well,
acting, singing and it's getting late plus you
get going 'cause at 5:30 at McDonalds.
have to get to work the summer and never
Keep in touch over me 'cause you have my
fall, I'll know you'll write address!



Love ya always,
Joe

We are class

The Junior Class is the best and not just because of the simple fact that we are better than all the rest. It's because we only have one year to go, and for some it will move along very quickly and for others very slowly. But it doesn't matter, because we've got one another and spent most of our lives going to school with each other. And with that in mind we know we will survive. We are class - the class of '85.

1983-84 JUNIOR CLASS BOARD: FRONT ROW: Nancy Singer, Roslyn Grossman, Herb Aronow, Beth Rosenman, Carolyn Grawi. BACK ROW: Missy Lumberg, Lisa Velick, Stacey Kaufman, Advisor Nancy Waits. NOT PICTURED: Shari Hoenig, Louis Sugarman, Karen Fields, Tom Grubba, Laurel Woodson, Patti Carey, Laura Cinat, Karen Bodiya, Hope Stocker, Jeff Frank, Lisa Goodman.

Dear Simone,
Dim not going to say its been a great year because its too boring but it has been anyway. Our sabatoge next year better work. Dll talk to you about it someday during the summer when D am walking my dog. Your town is one of his favorites. Have fun up at my favorite college (U of M) and D hope to see you up there next year when D go (hopefully). If D don't make it up there D can always get a job as a street crack cleaner. Maybe Dll see you at some football games. Well, Joe is threatening to kill me if D don't finish so Have a great year, have fun at college, and see you over the summer.

Love,
Neal Weiss

P.S. - We better get everyone together over the summer and do something and see you at the reunion.

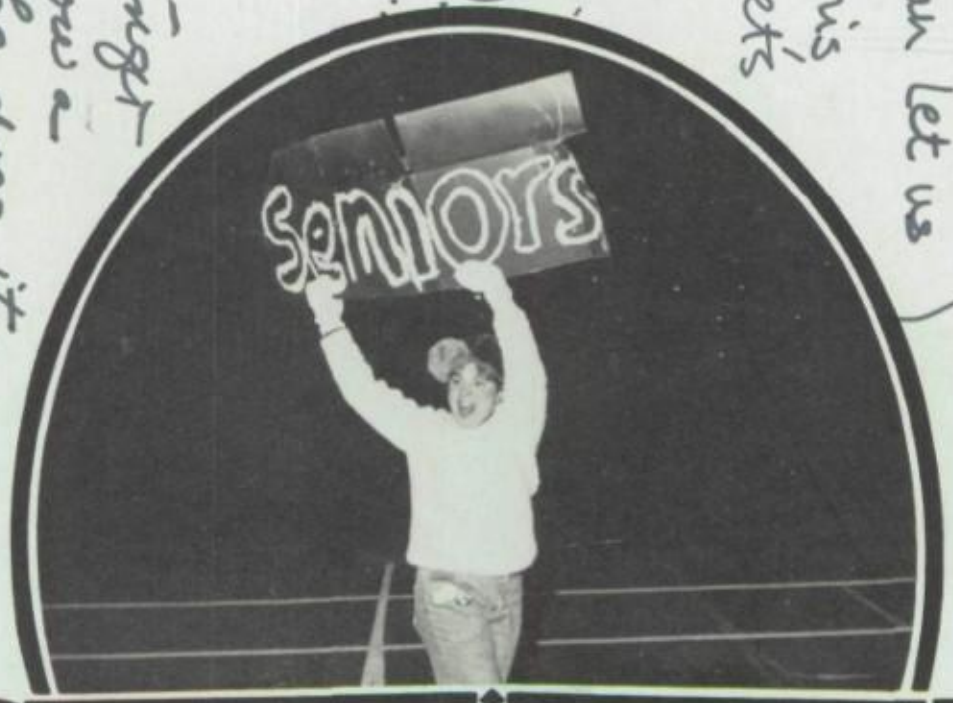
REMEMBER WHEN



In the fall of our senior year, we came to school with senioritis in our blood, but time passed all too quickly.

The football games and Burger King were great. We soon looked forward to vacation.

Last semester came and we awaited our senior trip and prom.

Graduation parties soon brought tears to our eyes as they reminded us of friends we'd be leaving.

June and graduation quickly arrived. We said our goodbyes, and now we look back through our yearbook with memories we will never forget.

S-L

Seniors

SAME way. You're too good of a friend to lose—ever!! We must ALWAYS stay in close contact. I'm a good letter writer, & even though you'll be all the way in Ann Arbor, my door will always be open to you. Good luck, health, & happiness should always be with you

Much love & friendship,
Mara Rochelle '84 (:)

do ya really need that? ↓

★ Simone!! Before I forget—see pg 191. I'm SO shocked—look where we are right now. I still remember seeing you sitting in the back row of Mr. Popkey's (soon to be Mr. Goldberg's) room back at Thompson. Look how we've changed!! From singing "Never my Love" to "Ave Maria" (gee its good ta see ya) in only 6 short years!! This year has truly been the BEST one ever → I think being with you in Madrigal & having you as a locker neighbor helped, too. And don't forget:

1984, a year for memories

We're seniors at last,
and now here we stand.
They hold open the door,
as we tread forth through the land.
With thoughts in our head,
and life in our heart,
say goodbye to our school,
as from it we part.

Someone
If you never remember me
I won't be hurt But
If you do it good for you
I hope you had a good
time in the last
4 years and
I wish you all the luck
in the world that
you will need
you not that

REMEMBER WHEN

After all the calls were made, the no's, the yes's, the hang-ups, and the wonderful "It's in the mail," we finally got it together.

Bills were sent, artwork was completed, and layouts were turned in. The final part of the yearbook was done.

Dealing with businesses was not always easy. However, the long hours spent were rewarded with many ads.

The variety of advertisements contributed greatly to the yearbook. They were appreciated by the staff, especially when the checks came in to meet the bills.

Dear Simone (or Sim),

I'm not very good at saying what is on my mind or how I feel, but writing is a little easier for me. I might not have shone it, but since the night we went out last summer, I've liked you more than anyone else I've ever met. As the year went on, though, I wasn't sure of how you felt about me. As the year went on, I tried to not think of you as much because I thought that maybe you had met someone at school. But I could never really push you out of my mind. It made the the year very frustrating because I could never really concentrate on anything. I joke about hitting the wall at the Ronaldi, but the frustration and uncertainty was really the cause of it. I was never really happy during the year, although the Basmajis did help a little bit. As the end of the school year came, I wondered how it would be between us when you started working again. I wanted to say something, but I was always too shy to come out and say it. You will never know how relieved I was when you gave me that letter, you'll just never know. Even now that I know how you feel, I'm still too shy to let my feelings show, although I am getting better. I hope that relationship continues to glow and strengthen as it is now. This summer has been the best summer of my life and it will only continue to get better. The end of the summer is going to be very difficult for me. You mean more to me than I let on and that I apologize for. When we go away to school, I will be very sad, for it will be as if part of me is missing. I want you to know that I will always be there for you whenever you need encouragement, support, or just a shoulder to lean on. I will visit as often as I can and I will most definitely keep in touch. Trying to strengthen our relationship long distance will be difficult, but I feel that we are both mature enough and feel strong enough about each other to pull it off. Besides, I'm really going to need you to help pull me through the next year. Right now, "You're the meaning in my life, you're the inspiration," as you always will be. I like you more than anyone I've met and I know that my feelings won't change. I want you to know that wherever we are, "I just call out my name . . . You've got a friend!"

Love,
Dave

P.S. I did not read my yearbook before I wrote this. Really, I didn't.

Dear Sim,

I know I've already written once, but I felt like writting more tonight. You know that I like you a great deal, but I haven't told you why. In the last year and a half, I've gone out with four girls, not including you. Each of those relationships lasted no more than one week. Because of this, I was never really very confident of myself. I found out that these girls liked me because I was "built", but once they went out with me, I didn't meet their expectations. Knowing this, I never felt comfortable with girls I went out with. The reason I like you as much as I do is that you like me for who I am, not what I look like or how I'm built. You make me feel special and that something that no one has been able to do before. I've never been able to talk to anybody like I talk to you. You have revealed a part of me that no one has ever seen before, and for that I thank you. You have helped me feel like a person again and that is something I will never forget. Thank you again.

Love
Dave

P.S. I think that's more, don't you?

The year has finally come to an end, and as you look through the pages of what I consider a truly unique yearbook, I hope you appreciate all the work that it took to put it together. There were times of frustration, confusion, and giving up. Unless you are on the staff, it's hard to realize the effort that is put forth to produce a yearbook. Mrs. Cipolloni gave the yearbook her all, and we never could have done it without her. So as you turn through the pages of this novel of memories, I hope you cherish it as much as I do, and that you always: "Remember When . . . "

Simone,

It was nice having a person in my 2 toughest classes who seemed almost as confused as I was! Thanks for helping me in Chemistry. Good luck at U-M. I'll be going to a real school, M.S.U., which is only a short distance from Ann Arbor, so if you ever happen to be in E. Lansing, look me up.

Jeff Wing

Simone

I know we have just met, I really wanted to get to know you better, like at one of the worst possible McDonalds. I'm not going to see you this summer because I'm going to Israel. Have a great summer

Love Dan Zeldman

Simone

I'm never gonna talk to you again! You were so mean to me and I'll never forgive you!

Anyway, it's been a hell-of-a year, eh? You're so damn lucky that you're a fu— (I would have said "Fuckin'," but I thought it might be inappropriate for our general readers) Senior! I've got another whole year to go — and with my luck, I'll probably get [redacted] OOPS babbling Bores — on for Math Seminar! Well, maybe I'll see you at the College of Engineering at Michigan. Since I can't think of anything else to say, I'll stop now. Have a great summer!

Love (maybe)

Dan Hutchison

P.S. I forgot to add a quote that I wrote in everyone's book — "Oh well, what the hell!" (McWatt — Catch 22).

Simone,

Hope it was nice seeing you at U of M. You were a fine person in my 2 toughest classes. Good luck at Lansing Community College and beyond.

Love ya babe

Jeff Wing

Simone,

I'm so glad we became friends this year. It's been great working with you. Good luck in college and beyond.

Love

Lyons

Dear Simone

I'm glad I met you, you are a very interesting person. I'll stop by and visit at Michigan since you're only a block away. This year has been a lot of fun etc. Hope that Michigan is a lot of fun. Good luck in engineering.

Love,

Steven Stoyk

Simone Dear,

It has been, most sincerely, an honor and a privilege and thoroughly enjoyable to have known you this year; just a few things for you to look back on in years to come:

- clichés: "Levity; levity!"
- accomplishments: 10 Little Indians, LIVE SPELLED BACKWARDS, Madrigals
- mixed blessings: 10 Little Indians, Live spelled Backwards
- intrigue: decoders
- infamy: △, $, and the supreme-high-□ and ✗.
- arguments: °didn't have one. ×Yes we did. °No, we didn't. ×Youre mistaken, I'm quite sure we did. °No, it wasn't a real argument, just pretend, like Monty Python. ×Wrong, it was a true argument....
- fashion: scarves and collars.
- The Oscars, Emmies, and Grammies: To you and Jenay, best spontaneous [redacted] acting team.
- outlook: lifetime "

I believe I've known you about, er(..May ... April .... March .... Feb.) about 4 months, since the play began, though I finally saw the girl with the double name (Simone Simon) for my first time in math class. (When did you first meet me?).

Nothing about "see you next year" and nothing about "let's keep in touch." It has no place for me here. I have some confidence. Simone, [redacted] I wish you all the best, now and always. Happy lifetime.

Love,
Scott E.

Simone　Simon.

It's such a cute name!! You won't have to change your name when you become a BIG ★ "étoile"
You are very very talented. You are. When you become famous and meet Bowie get his autograph for me (a sudden change in color.... Green is good for your eyes you know)

Simone,
It's been a good year. Congradulations on everything. Too bad we never really got the chance to know each other better. Maybe we will next year. Good luck, and please continue your singing and acting career. You are really good.

I'm really, really, truly glad that I went to Montreal with you. I found out that we have so much in common. We have the same taste in clothes, we both like Bowie. We have the same kind of dreams (about going to space*). I will definitely

Love

Dear Simone,

I'm sure this sounds like a typical yearbook speech, but I really am glad we've gotten to be closer friends this year. I'll never forget the times we had in chem, especially the times we had to redo it (plural) because of times we were talking. I'm really glad that I met you and I'm going to be in the same physics class next year. I'll also never forget the interesting conversations we had in the car on the way to school. I'll miss you and I'm going to be thinking of you next year. I'll always remember you as a very kind, sweet, and thoughtful person. Good luck with all your endeavors in the future. I'll miss you a lot!

Love,
Donna

Simone,

Qu'est-ce que je peux écrire en français. Je sais pas et ainsi, j'écrirai en anglais. Oh well another year has gone by and unfortunately its the last year we'll be together in high school. I hope to see you again, but if I don't (God forgive) have a great life. au revoir - but not good-bye

Simone - youre a really neat person. its so much fun to be around you and yet at the same time I see the caring person you are. I'll always remember the great laughs we had in Madrid's and around the locker, and how we freaked out when we made it to states, and again when we got 'the gold'. You'll do great at CofM - I know. You'll Don't forget me. Good luck at CofM. People will run out of room
